SUMMARY

Third-year Computer Science student at Egyptian Chinese University with hands-on experience leading student engineering teams to build AI-assisted automation platforms, backend services, and embedded/robotics systems. Skilled in Python, C++, and FastAPI, with practical exposure to conversational AI integration and workflow automation (n8n, AI Studio). Currently expanding into NLP, RAG, LLMs, and Big Data through an ongoing AI hackathon. Founded and leads a university competitive programming community and has instructed 20 students in programming fundamentals. Seeking an AI Engineering, Machine Learning, or Software Engineering internship.

EDUCATION

Egyptian Chinese University — Cairo, Egypt *2024 – 2028 (Expected)*
B.Sc. in Computer Science | Third-Year Student

EXPERIENCE

Founder & Community Lead — ICPC_ECU_CS Community *2025 – Present*

- Founded and currently lead the university's competitive programming community.
- Organize algorithmic and problem-solving training activities using C++ and Python.

Software Instructor — Coach Academy *Nov 2025 – Feb 2026*
Part-time, Online

- Taught programming fundamentals, software development basics, and problem-solving to a class of approximately 20 students.
- Guided students through hands-on coding practice to build foundational programming skills.

TECHNICAL SKILLS

Programming Languages: Python, C++, C#, JavaScript, SQL
Software & Web Development: FastAPI, Web Development, Object-Oriented Programming (OOP), Unity
Tools & Automation: n8n, Git, GitHub, AI Studio
AI / Machine Learning: Artificial Intelligence, Machine Learning fundamentals
Currently Learning (AI Hackathon, in progress): NLP, RAG, LLMs, Big Data

PROJECTS

AI Customer Service & Automation Platform *2026*
Best University Project | Led a 5-member team

- Led a 5-member team to build a web-based customer service platform featuring conversational AI that helped users discover products and receive recommendations.
- Built automation workflows in n8n and integrated AI Studio and FastAPI into the platform.
- Automated post-purchase invoice and message delivery through Email and WhatsApp.

HEALIX Healthcare System — System Analysis *2025 – 2026*
Best University Project | Led a 4-member team

- Led a 4-member team to analyze and design an integrated healthcare/clinic management system.
- Documented system components, workflows, and requirements for the proposed solution.

NASA Space Apps Challenge *2025*
Web Developer

- Developed the team's project website as a core technical contributor for the global NASA Space Apps Challenge.

GPS Vehicle Tracker *Summer 2025*
Led a 5-member team

- Led a 5-member team to build a real-time GPS vehicle tracking project using an ESP 7200H module.

Firmware Manifest — Update Verification *2026*
Team Leader

- Led development of a firmware manifest solution to check whether a device is running the latest available update.

OS & Algorithm Scheduling *2026*
Team Leader

- Led implementation and analysis of operating-system scheduling concepts and scheduling algorithms.

Pizza Restaurant Database *2026*

Team Leader

- Led development of a relational database project for a restaurant system using SQL.

Autonomous Robotics — Human-Following & Maze Solver Robots *2024 – 2025*

Team Leader

- Led two robotics projects: a human-following robot and an autonomous maze-solving robot.

Unity Game Development *2026*

Team Leader

- Led development of a first-person shooter and a 3D third-person combat game using Unity and C#.

LEADERSHIP & COMPETITIONS

- Founder & Community Lead, ICPC_ECU_CS Community (2025 – Present)
- Problem Solver — Level 2, Coach Academy
- AI Hackathon (Instant & Orange) — Ongoing participant, developing NLP, RAG, LLM, and Big Data skills (2026 – Present)
- NASA Space Apps Challenge — Team Participant (2025)
- Egyptian Collegiate Programming Contest (ECPC) — Two-time Participant (2025 – 2026)

TRAINING & CERTIFICATIONS

- Machine Learning Engineering — DEPI × Microsoft (2026 – Present)
- Machine Learning — NTI (2026 – Present)
- Game Development with Unity — ITI (2026)
- AI Ambassadors — Advanced Level, Phase 2 & Phase 6 (2025 – 2026)
- Cyber Security — NTI (2025)
- Full Stack Development for Beginners — NTI (2025)
- AWS Cloud Practitioner (2025)
- Competitive Programming Training — ICPC Coach Academy (2025 – 2026)
